## **SAFETY INSTRUCTIONS**

- This manual serves for teaching efficient use of the product. Please read this manual carefully before first use and keep it for future reference.
- Be especially careful during assembly. Use the assistance of another adult for better safety.
- To ensure the best safety of the exerciser, regularly check it for damages and wearing.
- If you pass on this exerciser to another person or if you allow another person to use it, make sure, that this person is familiar with the content and instructions of this manual.
- Only one person should use the exerciser at a time.
- Before the first use and regularly make sure, that all screws, bolts and other joints are properly tightened and firmly seated.
- Before you start your workout, remove all sharp- edged objects around the exerciser.
- Only use the exercise for your workout if it works flawlessly.
- Any broken, worn or defective part must be replaced immediately. Don't use this device until broken or worn parts are repaired or replaced.
- Parents and other supervisory people should be aware of their responsibility, due to situations which may arise for which the exerciser has not been designed and which may occur due to kid's natural play instinct and interest in experimenting.
- If you do allow children to use this exerciser, be sure to take into consideration and assess their mental and physical condition and development and above all their temperament. Children should use the exerciser only under adult supervision and be instructed on the correct and proper use of the exerciser. The power rack is not a toy.
- It is necessary to ensure enough free space around the entire device, min. 0.6 m. None of the adjustable parts must be left protruding to impede the user's movement.
- Make sure there is sufficient free space around the exerciser when you set it up.
- Please note that an improper and excessive workout may be harmful to your health.
- Please, note that levers and other adjustment mechanisms are not projecting into the area of movement during the workout.
- When setting up the exercise, please make sure that the exerciser is standing in a stable way and that any possible unevenness of the floor is evened out.
- Always wear appropriate clothing and shoes which are suitable for your workout on the exerciser. The clothes must be designed in a way so that they will not get caught in any part of the exerciser during the workout due to their form (for example length). Be sure to wear appropriate shoes, which are suitable for the workout, firmly support the feet and which are provided with a non-slip sole.
- Be sure to consult a physician before you start any exercise program. He may give you proper hints and advice with respect to the individual intensity of stress for you as well as to your workout and sensible eating habits.

# ASSEMBLY

Step 1

Step 2

### Step 3

## EXERCISE INSTRUCTIONS

Exercise is beneficial to your health, improves physical condition, shapes muscles and, in combination with a calorie-balanced diet, leads to weight loss.

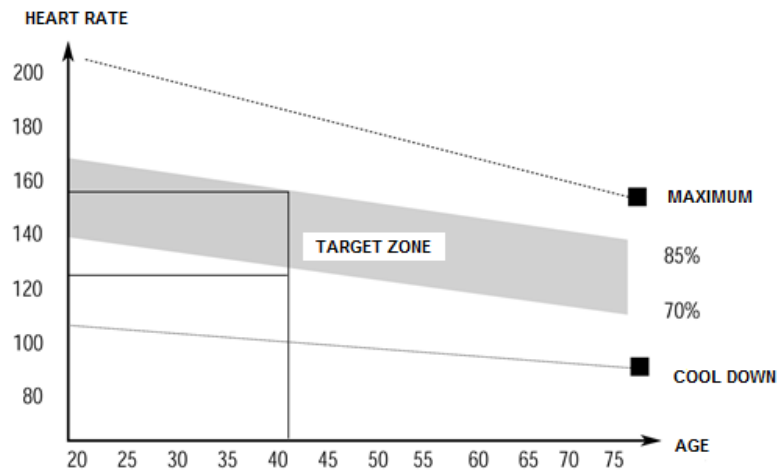

### 1. WARM UP

This phase serves to improve the blood circulation of the whole body and to warm up the muscles, to reduce the risk of convulsions and muscle injury. We recommend performing the stretching exercises below. When dragging, stay in the end position for approximately 30 seconds, do not make sudden movements and do not vibrate.

## 2. EXERCISING

This phase is the most physically demanding part. Regular exercise strengthens the muscles. You can determine the tempo yourself, but it is very important that it is the same throughout the exercise. Heart rate should be within the target zone (see figure below).

**This phase should last at least 12 minutes. Most people exercise for 15-20 minutes.**

## 3. COOLDOWN

This phase serves to soothe the cardiovascular system and relax the muscles. It should take approximately 5 minutes. You can repeat warming up exercises or continue exercising at slower pace. Stretching your muscles after exercise is extremely important - you need to avoid sudden movements and vibrations.

With improved fitness, you can lengthen and increase exercise intensity. Train regularly, at least three times a week.

## SHAPING MUSCLES

For muscle shaping, it is important to set a high load. The muscles will be more stressed, which may cause that you will not be able to exercise as long as usual. If you are trying to improve your condition at the same time, you need to adjust your training. Exercise in the usual way during the warm-up and final stages of training but increase the resistance of the device at the end of the exercise. You may need to slow down the speed to keep the heart rate in the target area.

## WEIGHT LOSS

The number of calories burned depends on the length and intensity of the exercise. The essence is the same as in fitness exercise, but the goal is different.

## MAINTENANCE

1. After exercising, wipe off any sweat to avoid corrosion. Clean the device with a soft cloth and mild detergents. Do not use abrasive cleaners or solvents on plastic parts.
2. In case of increased machine noise, all bolts and joints must be checked and tightened properly.
3. The product must be placed in clean, ventilated and dry areas.
4. Do not expose the device to direct sunlight.

## ENVIRONMENT PROTECTION

After the product lifespan expired or if the possible repairing is uneconomic, dispose it according to the local laws and environmentally friendly in the nearest scrapyards.

By proper disposal you will protect the environment and natural sources. Moreover, you can help protect human health. If you are not sure in correct disposing, ask local authorities to avoid law violation or sanctions.

## **TERMS AND CONDITIONS OF WARRANTY, WARRANTY CLAIMS**

### **General Conditions of Warranty and Definition of Terms**

All Warranty Conditions stated here under determine Warranty Coverage and Warranty Claim Procedure. Conditions of Warranty and Warranty Claims are governed by Act No. 89/2012 Coll. Civil Code, and Act No. 634/1992 Coll., Consumer Protection, as amended, also in cases that are not specified by these Warranty rules.

The seller is SEVEN SPORT s.r.o. with its registered office in Strakonická street 1151/2c, Prague 150 00, Company Registration Number: 26847264, registered in the Trade Register at Regional Court in Prague, Section C, Insert No. 116888.

According to valid legal regulations it depends whether the Buyer is the End Customer or not.

“The Buyer who is the End Customer” or simply the “End Customer” is the legal entity that does not conclude and execute the Contract in order to run or promote his own trade or business activities.

“The Buyer who is not the End Customer” is a Businessman that buys Goods or uses services for the purpose of using the Goods or services for his own business activities. The Buyer conforms to the General Purchase Agreement and business conditions.

These Conditions of Warranty and Warranty Claims are an integral part of every Purchase Agreement made between the Seller and the Buyer. All Warranty Conditions are valid and binding, unless otherwise specified in the Purchase Agreement, in the Amendment to this Contract or in another written agreement.

### **Warranty Conditions**

#### **Warranty Period**

The Seller provides the Buyer a 24 months Warranty for Goods Quality, unless otherwise specified in the Certificate of Warranty, Invoice, Bill of Delivery or other documents related to the Goods. The legal warranty period provided to the Consumer is not affected.

By the Warranty for Goods Quality, the Seller guarantees that the delivered Goods shall be, for a certain period of time, suitable for regular or contracted use, and that the Goods shall maintain its regular or contracted features.

#### **The Warranty does not cover defects resulting from (if applicable):**

- User's fault, i.e. product damage caused by unqualified repair work, improper assembly
- Improper maintenance
- Mechanical damages
- Regular use (e.g. wearing out of rubber and plastic parts, moving mechanisms, joints, wear of brake pads/blocks, chain, tires, cassette/multi wheel etc.)
- Unavoidable event, natural disaster
- Adjustments made by unqualified person
- Improper maintenance, improper placement, damages caused by low or high temperature, water, inappropriate pressure, shocks, intentional changes in design or construction etc.

### **Warranty Claim Procedure**

The Buyer is obliged to check the Goods delivered by the Seller immediately after taking the responsibility for the Goods and its damages, i.e. immediately after its delivery. The Buyer must check the Goods so that he discovers all the defects that can be discovered by such check.

When making a Warranty Claim the Buyer is obliged, on request of the Seller, to prove the purchase and validity of the claim by the Invoice or Bill of Delivery that includes the product's serial number, or

eventually by the documents without the serial number. If the Buyer does not prove the validity of the Warranty Claim by these documents, the Seller has the right to reject the Warranty Claim.

If the Buyer gives notice of a defect that is not covered by the Warranty (e.g. in the case that the Warranty Conditions were not fulfilled or in the case of reporting the defect by mistake etc.), the Seller is eligible to require a compensation for all the costs arising from the repair. The cost shall be calculated according to the valid price list of services and transport costs.

If the Seller finds out (by testing) that the product is not damaged, the Warranty Claim is not accepted. The Seller reserves the right to claim a compensation for costs arising from the false Warranty Claim.

In case the Buyer makes a claim about the Goods that is legally covered by the Warranty provided by the Seller, the Seller shall fix the reported defects by means of repair or by the exchange of the damaged part or product for a new one. Based on the agreement of the Buyer, the Seller has the right to exchange the defected Goods for a fully compatible Goods of the same or better technical characteristics. The Seller is entitled to choose the form of the Warranty Claim Procedures described in this paragraph.

The Seller shall settle the Warranty Claim within 30 days after the delivery of the defective Goods, unless a longer period has been agreed upon. The day when the repaired or exchanged Goods is handed over to the Buyer is considered to be the day of the Warranty Claim settlement. When the Seller is not able to settle the Warranty Claim within the agreed period due to the specific nature of the Goods defect, he and the Buyer shall make an agreement about an alternative solution. In case such agreement is not made, the Seller is obliged to provide the Buyer with a financial compensation in the form of a refund.
